

## **Partnership that Works**

**Coming together is a beginning...**

**Keeping together is progress...**

**Working together is **Success!****

The fall of 1996 in Brick Schools saw Volunteers become major participants in the school day. Since then we have seen the commitment and dedication from parents and community members, coming together with teachers and administrators to help in any and all ways to benefit the students.

We are happy to say that the 2010-2011 school year will not be any different. The formal Volunteer Program will continue in our district as it has done for the past 14 years.

We need your help and we hope that if you have the time to help that you will join the Volunteer team NOW! This Volunteer program is different from the PTA, PTO, Home and School Council and Class parent programs that also help in a wonderful way. Give us a call and we will answer any of your questions. Please email the below information to [dsilvestri@brickschools.org](mailto:dsilvestri@brickschools.org) or call it in this summer to become a volunteer.
