

The Pearson / Prentice Hall text book software has become available for use by faculty. From the 'My Applications' Folder on your desktop you should see two new folders: 'Literature Grade 7' and 'Science Explorer'. (see below)

Along with the ExamView and LessonView software the 'Literature Grade 7' series comes with an online tool that you access from the Internet. This document accomplishes two items: 1. Make you aware of new software that should be in your Applications folder on your desktop and 2. Demonstrate how to register and access the Pearson SuccessNet website tools.

Located within the 'Literature Grade 7' folder are two icons: Pearson SuccessNet Login and an associated 'Read Me for SuccessNet...' (see below). The read me file contains the 'Registration Key' necessary to create an account and access the tools provided to you by Pearson. Double click on the Read Me file to open the file...

With the text file open move your cursor to the beginning of the registration key and 'highlight' the key (the key has been intentionally blurred out due to the public nature of this document). Once highlighted, right click on the blue and select 'Copy' from the drop down menu. We are done with this file and you can now close it.

The next step is to double click on the 'Pearson SuccessNet Login' icon. This will open Internet Explorer and take you to the Login screen for SuccessNet. Since we have not registered for this site yet we cannot login. On the right hand side of this screen you will see a 'Register' button (see below). Click this.

On the resultant screen you will see a field asking for the 'Access Code'. Move your mouse over this field and right click your mouse. From the drop down menu select 'Paste'.

[Already a SuccessNet student?](#)

[Already a SuccessNet teacher?](#)

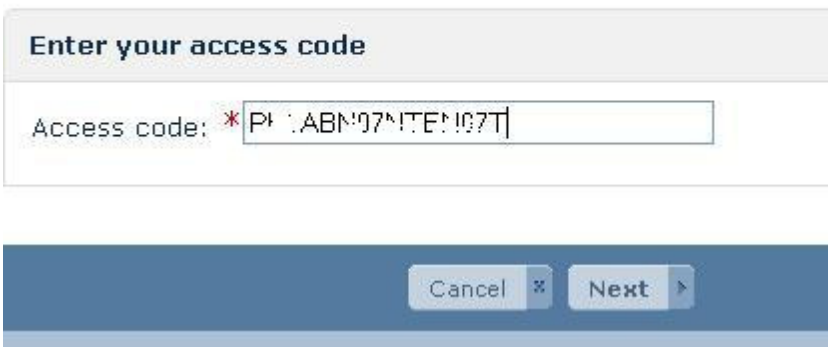

The screenshot shows a form titled "Enter your access code". Below the title is a text input field with the label "Access code: *". A context menu is open over the input field, listing options: Undo, Cut, Copy, Paste (highlighted), Delete, and Select All. To the right of the input field, there are two buttons: "Cancel" and "Next".

The Access Code from the Read Me file should now be visible in this field (the key has been intentionally blurred out due to the public nature of this document). Click Next.

[Already a SuccessNet teacher?](#)

The screenshot shows the same "Enter your access code" form. The text input field now contains the access code "P! :ABN'07NTE!07T". The "Cancel" and "Next" buttons are still visible at the bottom of the form.

The following screen is self explanatory as are the remainder of the steps. Here you will fill in your personal information, create a user account and complete the Registration process. Once done you will be able to login and access the tools provided for by this site. You can also create login accounts for your students so that they can take advantage of this resource as well!

It is important that you put the proper zip code into the Zip Code Field. As seen below we enter '08724' As soon as you place this zip code into the Zip Code field the 'Building' field will automatically populate with our list of schools. Click on your school and move on and complete the remaining fields. Only those fields marked with an '*' are mandatory.

Enter Zip Code:

Do not select a school other than your own. If you are a teacher, make sure you select your school and not your district.
